OUR 1939 INTRODUCTIONS

Are WHITE SPIRE, a glistening unblemished white which grows to 4 or 5 feet in height and which carries as many as 8 blooms at one time on a perfectly upright spike, and REFLECTION, a gorgeously soft clear lavender which grows tall and strong. The florets are almost perfectly set on the spike-head.

We realize that to successfully introduce a new variety on today's competitive market it must first prove itself to be top-notch. So we have made every effort to prove WHITE SPIRE and REFLECTION both in the field and in Show competition. It was gratifying when WHITE SPIRE never failed to win a prize in the EIGHT major Shows it was entered, while REFLECTION was the object of so much praise that we feel justified in marketing it as the most beautiful lavender.
